

# NASA's Neurodiversity Network Summer Internship

NASA's Neurodiversity Network (N3) is looking for summer interns to work on projects with NASA scientists. The goal of the N3 program is to provide experiences for neurodiverse students, specifically those on the autism spectrum, that will spark their interest in careers in STEM (Science, Technology, Engineering and Mathematics).

160 hours of work between  
**June 1 to September 2, 2022**

Please go to our website [n3.sonoma.edu/internships](https://n3.sonoma.edu/internships) for more information and to submit your application due by **March 7, 2022**.

## Details:

All interns will be paired with a Subject Matter Expert (SME) from NASA's network. Individual SMEs will have expertise in at least one of the following areas: Astrobiology, Astrophysics, Earth and Environmental Science, Heliophysics and Planetary science and exploration. The work schedule will be mutually agreed upon by the intern and the SME.

Internships will be completed remotely during Summer 2022 and N3 interns will receive a \$1,000 stipend upon completion of their internship.

## Eligibility:

Students must submit an online application and a teacher recommendation letter is required for full consideration.

Current high school students 16 years of age or older who identify as autistic and have completed algebra and at least one year of a physical science course are eligible to apply for this internship program.

Are you an  
autistic high schooler  
interested in working with  
NASA scientists this summer?
